Gen AI course

Gen AI. Built from real interviews.

Python, a large language model, RAG and an agent. The same four modules as Agentic AI.

Take the free AI interview first

browsejobs.ai

6 months
live online, with recordings

₹30,000 / USD 600
registration, covers the course

3 months' CTC
pay after placement, only after you accept an offer (India)

Free
AI interview before you pay anything

At a glance

What you will be able to do.

01 Read, change and explain a Python program

02 Call a large language model and judge its answer

03 Ground answers in your own documents with RAG

04 Build a small AI agent and say what it may do

05 Walk an interviewer through a project you built

TOOLS

Python

Large language models

Retrieval-augmented generation (RAG)

AI agents

HOW IT RUNS

Live online through the BrowseJobs LMS

Recordings of every class

Students anywhere

LENGTH

6 months

Live online, with recordings.

MONTHS

6

One block a month.

PROJECTS

1

Work you built and can explain.

What you will learn

6 months.

Only the modules published for this course. A topic that is not listed is not part of it.

MONTH 1

Python

- Read a short program
- Change it
- Explain what it did

MONTH 2

Python, continued

- Organise a program
- Handle data you can inspect
- Say what the code is for

MONTH 3

Large language models

- What you are calling
- What a prompt asks for
- Judge the answer

MONTH 4

Retrieval-augmented generation

- Ground answers in your documents
- Check the source
- Build the loop in Python

MONTH 5

AI agents

- A program that takes more than one step
- Build a small agent
- Say what it is allowed to do

MONTH 6

Project and the AI interview

- One project using all four parts
- Walk through what you built
- The free AI interview

Projects

Deployed, not just coded.

You build it, so you can walk an interviewer through it.

PROJECT 01

One project, four parts

Python, an LLM, RAG and an agent working together, in work you can walk through because you built it.

In writing: a project is work you did, in a new domain. We never add experience you did not have, and a project is never placed on a CV as employment.

The interview

Interview first. Course second.

A free AI interview tells you where you stand before you pay for anything.

1
Share your CV
The questions come from it.

2
Answer about 15 questions
Speak or type, like a real interview. Free.

3
Get your score
Out of 100, with where you were weak.

4
Clear 75%
Your CV goes to 3,000 HR recruiters.

5
Get the call
A person releases the offer. The market still decides.

Below 75%? A free counselling call · A plan made for you · A free retake

75%
The clear mark, scored out of 100.

3,000
A 75%+ AI interview score sends your CV to 3,000 HR recruiters.

Based on BrowseJobs internal data. Historical figures — not a promise of individual outcome. Hiring depends on the live market and your performance.

Why BrowseJobs

Every promise in writing.

01

Built from real interviews

The syllabus is rebuilt from the questions interviews ask.

02

Three free steps first

Counselling, a masterclass and a Python bootcamp before you pay.

03

Pay after placement

Three months of CTC, only after you accept an offer.

04

No job guarantee

The market decides. A person releases the offer.

05

Live online

You take the class live online through the BrowseJobs LMS. A recording covers a missed live class.

06

Never a fake CV

Real projects. We never add experience you did not have.

4.9

from 473+ Google reviews, as of 8 Oct 2026

2,683

students placed in 3 years, to Oct 2026

Based on BrowseJobs internal data. Historical figures — not a promise of individual outcome. Hiring depends on the live market and your performance.

Nobody can guarantee employment — the market decides.
What we put in writing is the process.

Google reviews

4.9 from 473+ Google reviews (as of 8 Oct 2026)

Word for word from the BrowseJobs Google Business Profile.

★★★★★

"One of his biggest strengths is his understanding of the current job market and what employers are looking for. More importantly, he has a genuine interest in helping his students succeed."

Pavan S
Google review

★★★★★

"The course is well structured and covers important topics like Python, SQL, Pandas, data cleaning, transformation, and cloud concepts with practical examples and project-based learning."

Dikshita nulageri
Google review

★★★★★

"I also appreciated the opportunity to attend free masterclasses for two weeks before enrolling, which reflected the institute's confidence in the quality of its training and helped me make an informed decision."

Chirag Puthran
Google review

★★★★★

"The team regularly shared useful interview questions, preparation materials, and provided quick responses whenever we had queries or required guidance."

varalakshmi Dakarapu
Google review

★★★★★

"The curriculum was well-structured and covered both fundamental and advanced concepts with practical examples, making it easier to understand real-world Data Engineering workflows."

Charan Kumar M
Google review

★★★★★

"The way Krish Sir explains complex topics through real-life stories makes them easy to understand and remember."

SHUBHAM SINDHU
Google review

Excerpts, captured 8 Oct 2026. The rating is for the BrowseJobs business listing, not a single course.

Fees and next step

Three free steps. Then you decide.

FREE · STEP 01

Counselling

With a written Career Analysis Report.

FREE · STEP 02

Live masterclass

See how the course is taught.

FREE · STEP 03

Python bootcamp

Try the work before you pay.

STEP 04

Registration

₹30,000, only after the free steps.

STUDENTS IN INDIA

₹30,000

In full, or **3 × ₹10,000** EMIs. Covers the course.

Placement fee: three months of the CTC on the offer you accept. Due only after you accept, in 6 monthly EMIs, with the ₹30,000 adjusted inside it.

A job is not guaranteed.

STUDENTS OUTSIDE INDIA

USD 600

One payment in US dollars.

No EMIs and no placement fee.

A job is not guaranteed.
